Hi,

We are **Phagenomics**, a Claremont iGEM team, and we would like to redeem part of our promotional offer from Twist.

Please find attached the three initial constructs that we would like to order.

As confirmed in our previous email chain (Tori and Xueer), it is possible to receive these as frozen glycerol stocks. **We are happy to cover the additional costs associated with this service, as well as the rush order.**

Thank you very much. Please confirm that you will process our request and provide instructions on how to pay for the non-covered part of the igem sponsorship.

We greatly appreciate Twist's tremendous support of the iGEM community.

Best regards,

Cesar
